SUMMARY

Data Analyst with hands-on experience in data visualization, ETL, dashboard creation, and predictive analysis. Skilled in Power BI, SQL, Python, and Excel with proven ability to analyze datasets, build interactive dashboards, automate reports, and deliver actionable insights that support business decisions.

TECHNICAL SKILLS

Business tools: Power BI, Tableau, Excel (Pivot Tables, Advanced Formulas, Data Cleaning)

Programming Languages: Python (Pandas, NumPy, Matplotlib), SQL

Databases: MySQL, Data Warehousing (Exposure)

Business Analysis: ETL, KPI tracking, Predictive Modeling, Process Automation

PROJECTS

Amazon Sales Data Analysis

(Automation, KPIs, insights, dashboards)

Apr 2024 – May 2024

Python, PowerBI

- Conducted ETL process on Amazon sales datasets.
- Developed dashboards in Power BI to track KPIs (sales growth, category performance)
- Automated reporting workflows, reducing manual effort.

Blinkit Sales Analysis Dashboard

(Pivot Tables, Charts, Conditional Formatting)

July 2025

Excel

- Created an interactive Excel dashboard with Pivot Tables and KPIs.

Global Superstore Orders

(Power BI, DAX, Data Modeling, Data Visualization, ETL)

Oct 2025

PowerBI

- Developed an interactive Power BI dashboard analyzing global retail sales performance by region, category, and customer segment. Enabled drill-down insights on profit trends, shipping efficiency, and top-performing products for data-driven business decisions.

EXPERIENCE

Business Analyst Intern

Unified Mentor

Apr 2024 – Jun 2024

Hydrabad, IN

- Gathered and analyzed requirements from stakeholders and translated them into technical specs.
- Designed and delivered data insights and reports to stakeholders, improving decision-making.
- Assisted in creating data process documentation and supported automation initiatives.

EDUCATION

Rajiv Gandhi University of Knowledge Technologies - CGPA 8.0

Integrated B.E. in Civil Engineering

Nuzvid, AP

Aug 2019 – May 2025

CERTIFICATIONS

- AICTE Data Analyst Internship
- Analyzing and Visualizing Data with Power BI – edX
- Python Certificate – Kaggle
- Google Analytics Certificate
